1. Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that are enclosed:

I feel this interchange will accomplish multiple objectives that will benefit the City of Montgomery

- 1) Relieve Congestion & Mitigate
- 2) Continue growth + development in East Monty
- 3) Attract more business to the East side of Monty w/easier access to the new Industrial Park + undeveloped land.

2. Please list comments about this public involvement procedure: \_\_\_\_\_

Please return by March 30, 2009 at 5:00 p.m. to the address below. Telephone comments may be made by calling Robert E. Smith Jr. at 334-241-2249. All comments will be provided for MPO members review before final consideration of the 2030 LRTP amendment document as final. Thank you for your involvement.

**1. Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that are enclosed:**

As an east Montgomery county resident, I feel that the proposed interchange would benefit commerce and offer another traffic option for an area already congested at Chantilley Parkway. With the outer loop on hold, this is a good option.

**2. Please list comments about this public involvement procedure:** Thanks for the opportunity to comment.

RE: 2030 Long Range Transportation Plan Amendment No. 2

Dear Mr. Smith:

Please consider this letter as my comments regarding the 2030 Long Range Transportation Plan Amendment No. 2 to add a proposed new interchange on I-85 at Wares Ferry Road.

I represent several developers and contractors in Montgomery County. I have talked to several of them about the proposed amendment to add a new interchange at Wares Ferry Road. I believe that this interchange would benefit this community by increasing development in that area, especially at and around the industrial park. The increased access to the businesses and residences will enhance the projects underway at this time and will increase other projects in the future. This community has needed better access to this area for some time and a new interchange will certainly be welcome.

Thank you for your consideration. Please note my support for the new proposed interchange at I-85 and Wares Ferry Road.

Sincerely,

Thomas C. Tankersley

TCT/dd

1. Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that are enclosed:

I believe we should have an interchange at Wares Ferry for several reasons. Most importantly is the tax revenue that would come from future development at the Industrial Park, which needs Interstate access.  
Also, the traffic flow improvement on Chamblin and Mitylene that would benefit from another interchange. It would also open up the growth for East Montgomery for future development and a new tax base.

2. Please list comments about this public involvement procedure: The longer the process is delayed the greater the cost and the greater displacement issues. Sooner than later!

Please return by March 30, 2009 at 5:00 p.m. to the address below. Telephone comments may be made by calling Robert E. Smith Jr. at 334-241-2249. 1. Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that are enclosed:

The proposed new interchange on I-85 at Wares Ferry Road is needed for a number of reasons:

1. The County Industrial Park and users of the other properties near Wares Ferry Road which are likely to develop ~~as industrial uses (both north and south of I-85) need to get on I-85 at Wares Ferry rather than Taylor road.~~ Even if the loop is built these industrial users will likely use the Taylor Road exit unless there is a Wares Ferry Exit.
2. The Taylor Road exit is extremely busy with non industrial traffic. The Wares Ferry exit would reduce the traffic problems by providing access to Chantilly Boulevard, Vaughn Road, and Pike Road at the Mount Meigs community instead of Taylor.
3. The area between Eastchase/Chantilly Boulevard and the proposed loop is logically the next area which will be developed. This development will flood the service roads north or south of I-85 and Highway 80 North of I-85 unless the Wares Ferry exit is built.

2. Please list comments about this public involvement procedure: \_\_\_\_\_

1. Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that are enclosed:

We should continue closing the gap between Montgomery, Wauch, Litzlere & Auburn. By adding another interstate exchange it would encourage business' activity for all commuters between Montgomery & Auburn & hopefully keep some of the revenue in our county

2. Please list comments about this public involvement procedure: All of Montgomery is moving east, therefore we need more accessibility to the new areas of development.

1. Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that are enclosed:

I'm in favor of a proposed new interchange on I-85 at Wares Ferry Road to open up access from Montgomery Industrial Park without going down to Exit 11. There are many companies we have attracted to the new park, and hope to attract many more, that will benefit from this proposed new interchange. In addition it will open up other development opportunities around the interstate or US 80 to expand our tax base.

2. Please list comments about this public involvement procedure:

**To:** Smith, Robert  
**Subject:** Waresferry Exchange

Mr. Smith.

We are a community of ninety homes called Knollwood and our community has been in existence since 1970.

Please note that the proposed exchange for Waresferry Rd will greatly impact our Community. It will create a significant traffic problem for our community. It will bring additional traffic through our community. It will create an undue issue for seniors abiding within our community.

Thanking you in advanced for your consideration.

I Remain,  
John Wesley Summers

RE: Opposition to Wares Ferry Road Interchange being placed back into Long Range Transportation Plan and Plan being amended to accommodate such.

As you know, my family owns a significant amount of property on both the north and south sides of I-85 at Wares Ferry Road and will be significantly and adversely affected by such an interchange in the area. As it is drawn, this interchange affects my family farm and livelihood in five distinct areas for inclusion.

This interchange affects a historic rural community of predominantly African American residents. They too will be adversely affected and harmed by this interchange. Harm caused by traffic congestion, air pollution, noise, and the loss of the quiet enjoyment of their homes, lifestyles, and environment.

3/31/2009

This would be a repeat performance of the Outer Loop Project which primarily took the lifetime homes and land of poor African American people in this rural community east of Montgomery nearly 10 years ago. This insufficiently funded project displaced a large number of residents and was never finished to this day. The funding was just enough to take their land and homes, place utilities and then abandon it. With the budget structure of the Wares Ferry Road Interchange Project, this scenario would happen again.

According to conversations with Don Vaughn at ALDOT and Commissioner Reid Ingram, it appears that new federal funds and private funds will be used for the Outer Loop Project to be completed southward to US 231. This would eliminate much of the traffic congestion coming from many of the surrounding communities such as Pike Rd, Chantilly Parkway and the Mitylene exits, and the new developments at Waugh. So why do another interchange, barely a mile away from Mitylene, the Outer Loop, or the Waugh exits? More waste of tax payer dollars and resources on duplicitous roads, interchanges and highways obviously for the benefit of just a few. Three exits seems more than adequate without creating more traffic congestion on the interstate with people trying to get on and off in this small area of roadway.

An alternative consideration to the interchange could be to straighten out and widen Wares Ferry Road all the way through to US 80 and beyond, which would include going through my family property on the south side of the I-85 at Wares Ferry Road.

Please discuss my opposition to the Wares Ferry Road Interchange and alternative considerations at the MPO meeting this evening March 30, 2009 at 5pm CST.

You may contact me at either of the address or phone numbers listed above.

Sincerely,

JR Brown

DATE: April 5, 2009

In response to Amendment Number Two (2) for the 2030 Long Range Transportation Plan Document and Travel Demand Model for the Montgomery Metropolitan Planning Organization (MPO): We, the following members of the Waugh-Mount Meigs Community, provide our ~~signatures~~<sup>names</sup> with addresses in response to your comment form:

**Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that were provided:**

1. The Outer Loop was your original plan and displaced citizens of the Mount Meigs and Waugh Communities by eminent domain and/or condemnation. Over 15 years later, it is still not completed.
2. The interchange on I-85 at Wares Ferry will not be needed if the Outer Loop is completed.
3. This interchange will affect citizens in the Mount Meigs and Waugh Communities again. Some will be displaced even though you say it will only affect one household. This is NOT true. There will be an increase of traffic from I-85, noise, possibly an increase in crime on Wares Ferry and in our quiet neighborhood. Wares Ferry Road will eventually need to be widened which will require additional funds and displacement of homes and maybe churches and businesses.
4. It is unfair for the government to continue to use eminent domain and condemnation to take minority properties. Your Map 2 shows that 30-40% of the population in the area near the interchange is below the poverty level. Your Maps 6 and 8 show that this area is 60-72% percent black population.
5. During previous meetings last year, you admitted that your studies proved that the I-85/Wares Ferry Road Interchange would not help the congestion on I-85. Because of this, we were told that this interchange would not take place.

**Please list comments about this public involvement procedure:**

1. The public should be more involved before the decisions are made.
2. Information should be advertised more effectively -- not only by newspaper, but radio, local television stations, billboards, emails, and mailings.

1. Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that are enclosed:

This project appears to be discriminatory on its face (Race-Discriminatory) as it selectively displaces a minority community when other options have been considered and are available for the outer loop - I 85 exchange.  
Why put one at Wares Ferry to I-85, except to displace the balance of a minority community

2. Please list comments about this public involvement procedure: \_\_\_\_\_

local residents had little or  
ON options to be involved in the selection  
of this community as an exchange point.

1. Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that are enclosed:

The displacement of property owners on the Wares Ferry Road bears a form of injustice. New homes built and elderly persons don't need the headaches or heartaches associated with the whims of political figures to pursue personal agendas. Working together we hope we can "STOP" this interchange before it begins

2. Please list comments about this public involvement procedure: We need to be kept well informed and involved on these situations. Working to "nip in the bud" before it begins eliminates a need to clean up after a project starts

Please return by March 30, 2009 at 5:00 p.m. to the address below. Telephone comments may be made by calling Robert E. Smith Jr. at 334-241-2249. 1. Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that are enclosed:

I am apposed to the proposed new interchange on I-85 at Wares Ferry Road. This project would entail uprooting more families who has been in the area for many years. These persons have past active employment making it difficult to relocate. The proposed new interchange on I-85 at Wares Ferry Road would not necessarily ease the traffic in the area. Families were uprooted for the Outer Loop which has not happened.

2. Please list comments about this public involvement procedure: There seems to be an insensitivity toward people of color. We are human like every other person in this County, we would like for all of of people to do the right thing for all people.

Please return by March 30, 2009 at 5:00 p.m. to the address below. Telephone comments may be made by calling Robert E. Smith Jr. at 334-241-2249. All comments will be provided for MPO members review before final consideration of the 2030 LRTP amendment document as final. Thank you for your involvement.

I did not want the new interchange on I-85 at Wares Ferry Road

2. Please list comments about this public involvement procedure: I did not get to read about this in the newspaper. My life are not to good.

1. Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that are enclosed:

*Please consider any means of transportation services and changes we hope will be implemented to add up to the clinic district. In reference to the "interchange", the selling land has been purchased for a later loop so use these properties for whatever.*

2. Please list comments about this public involvement procedure:

*More involvement is needed. More opportunities for public awareness to provide in community issues.*

Please return by March 30, 2009 at 5:00 p.m. to the address below. Telephone comments may be made by calling Robert E. Smith Jr. at 334-241-2249. 1. Please list all comments regarding 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road based on the documents that are enclosed:

I am totally opposed to the 2030 Long Range Transportation Plan amendment number two (2) to add a proposed new interchange on I-85 at Wares Ferry Road because:

(1) It makes no sense to put an interchange on I-85 at Wares Ferry Road when there is already easy on and off access to I-85 N and I-85 S 2 miles south of the proposed interchange and 3 miles north of the proposed interchange.

2. Please list comments about this public involvement procedure: The people affected the most are the last to know. Newspaper, TV, Radio, Flyers, Notices at Public Places would be some avenues for notification.

Please return by March 30, 2009 at 5:00 p.m. to the address below. Telephone comments may be made by calling Robert E. Smith Jr. at 334-241-2249. All comments will be provided for MPO members review before final consideration of the 2030 LRTP amendment document as final. Thank you for your involvement.

Finish the Outer Loop.

(2) By ALDOT's own admission, the proposed interchange would do nothing to alleviate (traffic) congestion on Chantilly Parkway. Living in Mt. Meigs I travel the specific areas of Hwy 80E, Chantilly Parkway and Wares Ferry Road, and can in no ways see traffic congest. alleviated on Chantilly Parkway by putting in the proposed interchange. I have traveled Chantilly all hours of the day & night and cannot see the congestion that is complained about. Finish the Outer Loop.

(3) the proposed interchange would be the start of another project to supposedly ease roadway congestion when the one previously started, called the Outer Loop has not been completed. Finish the one started, named the Outer Loop.

(4) When the Outer Loop project was started, many people were displaced in the Mt. Meigs Community. Those people displaced were minority, Black. Now there is a proposal for a new interchange on I-85 and Wares Ferry Road that would once again displace minority, Black, low income and senior citizens. That is totally unacceptable and plain wrong. The growth of Montgomery may be moving East, but those of us in the Mt. Meigs and Waugh communities have been here many years and want to live in peace like we always have. We do not want our lives interrupted by an unnecessary interchange on I-85 at Wares Ferry Road. Finish the Loop.

We are opposed to an interchange on I-85 at Wares Ferry Rd.
