Internet release date, April, 2008.

Footnotes for Table CA1-3

1. Census Bureau midyear population estimates. Estimates for 2000-2006 reflect county population estimates available as of April 2008.
2. Per capita personal income was computed using Census Bureau midyear population estimates. Estimates for 2000-2006 reflect county population estimates available as of April 2008. See footnote 1.

BEA's economic areas define the relevant regional markets surrounding metropolitan or micropolitan statistical areas. They consist of one or more economic nodes - metropolitan or micropolitan statistical areas that serve as regional centers of economic activity - and the surrounding counties that are economically related to the nodes. The economic areas were redefined on November 17, 2004, and are based on commuting data from the 2000 decennial population census, on redefined statistical areas from OMB (February 2004), and on newspaper circulation data from the Audit Bureau of Circulations for 2001.

For additional information see the November 17, 2004, [news release](#) and the *Survey of Current Business* (SCB) article, "2004 Redefinition of the BEA Economic Areas." (PDF • 1,279 KB)
